

RAILWAYS in the LONDON AREA (NORTH OF THE THAMES) **including all London Transport lines but excluding Western Region lines**

The following black and white photographs are available from Hugh Davies, Apartment 8, Caesar's Place, Ockford Road, Godalming, Surrey, GU7 1QW. For current prices and details of many other lists available please see Leaflet PL. Please always send a large, stamped, addressed envelope and 40p per list. Stamps are acceptable. Postcard size prints are normally available from stock. Larger size prints are only made against specific orders.

All photographs are taken by Hugh Davies and other members of the Railway Enthusiasts' Club (the REC) between 1946 and 1968 and the great majority have never been published. Indeed we shall be continuing to identify negatives, many thousands of them, over the next few years - negatives that have never before been printed, let alone published - so if you don't see what you want here, please keep in touch. What you require may feature in a future amendment or a new subject list.

The majority of views are only available in black and white, but views with reference numbers with a W or MHW prefix are also available as 6"x 4" in colour.

This list and further information is available on our website www.photosfromthefifties.co.uk

- B299/9 View from the new island platform at Hadley Wood station, looking in the down direction to the twin portals of the Hadley North tunnels; newly laid track in the foreground
- B299/10 The North portal of the new Hadley North tunnel, with newly laid track
- B299/11 Looking southwards from the top of the entrance to Hadley South tunnel, showing the footbridge and New Barnet gasworks in the far distance; the new double track has still to be laid but the formation is cleared and ready
- B299/12 View from the new platform at Hadley Wood station, showing the newly laid track
- B300/1 Hadley Wood station: the area beside the station where the new tracks will be laid and new tunnel constructed
- B300/2 Hadley Wood station, featuring the station building on the bridge over the line
- B300/3 Looking south from above the southern entrance to Hadley South tunnel with all four tracks laid; an up DMU is in the picture
- B300/4 The northern end of Potters Bar tunnel, probably taken in 1958, showing the new tunnel portal alongside the old; a lot of work still to be done before the rails can be laid; crane above tunnel entrance
- B300/5 Hadley Wood station in its original double track form, viewed from nearby hillside, with no signs of the impending engineering work
- B300/6 Before the widening; unidentified tunnel entrance with site of former goods yard in the foreground
- B300/7 Signal box out of use on the stretch of line to be widened; box appears to be remote from the line it controlled and is surrounded by grass
- B300/8 Footpath adjacent to the railway line with crane just visible in the distance
- B300/9 Distant view of Hadley Wood station in its pre-widening state
- B300/10 View from the same position as B300/9 after the widening has been completed, showing the new station and platforms, signal gantries and corner of portal to Hadley South tunnel
- B300/12 Looking south from the original down platform at Hadley Wood station, showing Hadley South tunnel; digging out for the new lines has commenced and the portal for the new Hadley South tunnel can just be seen
- B301/1 The platform canopies under construction at Hadley Wood station, looking south
- B301/3 Hadley Wood station when work had only just started; a crane is visible in the distance; photo taken from above Hadley South tunnel
- B301/4 Newly laid track at unidentified location

YOUR HELP WILL BE GREATLY APPRECIATED -- If you can identify the locations in unidentified pictures in any of my lists (including the above) do please write and let me know. If you are the first with the correct information you will be credited with the price of the print that you purchased. All these pictures were taken about 50 years ago and regrettably we didn't keep notes of all travels at the time. So by helping with identifications you will not just be helping me but all the other users of this service. Many thanks.
