

FRANCE, BELGIUM, NETHERLANDS

The following black and white photographs of railways in the above areas are available from Hugh Davies, Apartment 8, Caesar's Place, Ockford Road, Godalming, Surrey, GU7 1QW. For current prices and details of many other lists available please see Leaflet PL. Please always send a large, stamped, addressed envelope and 40p per list. Stamps are acceptable. Postcard size prints are normally available from stock. Larger size prints are only made against specific orders.

All photographs are taken by Hugh Davies and other members of the Railway Enthusiasts' Club (the REC) between 1946 and 1968 and the great majority have never been published. Indeed we shall be continuing to identify negatives, many thousands of them, over the next few years - negatives that have never before been printed, let alone published - so if you don't see what you want here, please keep in touch. What you require may feature in a future amendment or a new subject list.

The majority of views are only available in black and white, but views with reference numbers with a W or MHW prefix are also available as 6"x 4" in colour.

This list and further information is available on our website www.photosfromthefifties.co.uk

RESEAU BRETON

<i>Ref number</i>	<i>Description</i>	<i>Date taken (where known)</i>
5758A	Carhaix station with steam-hauled mixed train (one passenger coach but numerous freight vehicles) at passenger station on far side of goods yard	26 March 1967
5758B	Pontrieux station on the Guingamp to Paimpol line, with steam locomotive shunting; freight and passenger stock in view	26 March 1967

5777A	Single-unit railcar in the station at Camaret-sur-Mer, Westerly terminus of the Reseau Breton: good view of station buildings. The railcar, which is waiting to return to Chateaulin, is a Decauville type DXW unit, No.X231, one of three built in 1940 for service in Yunnan in French Indo-China (later Vietnam), but not delivered because of the war. They were purchased by the SNCF for use on the Reseau Breton in 1951	27 March 1967
5777B	Railcar at Chateauneuf-du-Faou, between Carhaix and Chateaulin on the Reseau Breton. The auto-rail is a de Dion-Bouton type OC2, six of which were ordered specifically for the Reseau Breton in 1939 (but not delivered until 1946/47) and numbered X201-6. The nameboard on the station building renders the name as Chateauneuf-du-Faon, which spelling mistake is still visible today on the building, which survives as a private residence	27 March 1967
5777C	Former Etat 2-8-2T 141.TC.1 of St. Brieuc shed at Paimpol with a mixed train from Guingamp. This, the most Northerly section of the Reseau Breton, is one of only two lines that survive to this day (the other being Guingamp to Carhaix), by virtue of having been converted to standard gauge. The Paimpol line was actually converted to mixed gauge in the 1920's, after which the metre gauge fell into disuse until the third rail was removed in 1953	26 March 1967
5778A	Reseau Breton 4-6-0T E327 (Fives Lilies 3582 of 1909) with lengthy freight train formed of box vans, photographed head-on $\frac{3}{4}$ at speed on double track section

YOUR HELP WILL BE GREATLY APPRECIATED -- If you can identify the locations in unidentified pictures in any of my lists (including the above) do please write and let me know. If you are the first with the correct information you will be credited with the price of the print that you purchased. All these pictures were taken about 50 years ago and regrettably we didn't keep notes of all travels at the time. So by helping with identifications you will not just be helping me but all the other users of this service. Many thanks.
