

## IRISH RAILWAYS AND TRAMWAYS: NARROW GAUGE

The following black and white photographs of railways in the above areas are available from Hugh Davies, Apartment 8, Caesar's Place, Ockford Road, Godalming, Surrey, GU7 1QW. For current prices and details of many other lists available please see Leaflet PL. Please always send a large, stamped, addressed envelope and 40p per list. Stamps are acceptable. Postcard size prints are normally available from stock. Larger size prints are only made against specific orders.

All photographs are taken by Hugh Davies and other members of the Railway Enthusiasts' Club (the REC) between 1946 and 1968 and the great majority have never been published. Indeed we shall be continuing to identify negatives, many thousands of them, over the next few years - negatives that have never before been printed, let alone published - so if you don't see what you want here, please keep in touch. What you require may feature in a future amendment or a new subject list.

The majority of views are only available in black and white, but views with reference numbers with a W or MHW prefix are also available as 6"x 4" in colour.

This list and further information is available on our website [www.photosfromthefifties.co.uk](http://www.photosfromthefifties.co.uk)

### **BORD NA MONA, CUSHINA**

<i>Ref number</i>	<i>Description</i>	<i>Date taken (where known)</i>
R0666	Andrew Barclay 0-4-0WT 2265/49, left-hand rear view at Cushina. This is one of three identical locos, generally regarded as disasters. They could not be used on the bog as their rocking grates set the place on fire, so they were confined to the main line, a distance of 3 miles only. The locos were first tried in 1950 and all three entered service in 1951, but only ran until around May 1953. They were then all parked up, though one was used for a rail tour in 1954. They were numbered LM43 to 45. LM 43 had its wheels removed, hence there are no known photos of it outside the shed	7 April 1963

R0667 Same loco as R0666, but right-hand ¾ view 7 April 1963

## GLENARIFF RAILWAY

<i>Ref number</i>	<i>Description</i>	<i>Date taken (where known)</i>
7339A and 7339B	Two views of the "White Arch", a remnant of short-lived Glenariff Railway, near Cushendall on the Antrim coast. This isolated, railway (the first 3' gauge line in Ireland) was built in 1873 to carry iron ore from Cloughcor mines at the head of Glenariff to a new harbour at Red Bay, but the venture failed and the line went out of use in about 1876. An attempt to revive it in 1880 also failed and it was abandoned in 1885. This bridge, of white limestone, was built to carry the line across the coast road. In a situation somewhat reminiscent of the chicken and the egg, the small settlement which grew up around the terminus of the railway is also known as White Arch!	Between Nov 1966 and May 1970

## BALLYMENA LINES (N.C.C.)

<i>Ref number</i>	<i>Description</i>	<i>Date taken (where known)</i>
7340B	Derelict remains of the NCC station at Parkmore, passenger terminus of the narrow-gauge line from Ballymena (commonly know as the Cushendall line). This "remarkably ugly, if utilitarian erection of concrete and glass" was built in 1921 to replace the original Belfast & Northern Counties Railway buildings after the latter had been burned down during the civil strife which preceded Partition. After withdrawal of passenger service in 1930 the building saw continued use as a youth Hostel, but clearly it had also given up that function by this date	Between Nov 1966 and May 1970
7341A	Surviving BNCR-type milepost "39". Presumed to be near Parkmore station. (According to the Working Timetables for the Cushendall and the Ballymena & Lame lines, Parkmore was an aggregate of 383/4 narrow-gauge miles from Lame, but the timetable mileages may not have included the ¼ mile connecting line at Ballymena)	Between Nov 1966 and May 1970
7341B	Former BNCR narrow-gauge station at Martinstown (Knockanally until 1920), on the Cushendall line; general view of site with former passenger station on left (partly hidden by the water tower)	Between Nov 1966 and May 1970
7342B	Former station yard, believed to be at Rathkenny, on the Cushendall Line, viewed from the road entrance; station building (right) largely hidden by fencing, some buildings and a chimney (presumed to be remains of the Rathkenny mine) visible in the left background)	Between Nov 1966 and May 1970
7344A	Former station at Moorfields, on the Ballymena & Lame narrow-gauge section of the NCC, viewed from the overbridge at the east end of the site. This station was unlike any other on the line; the large two-storey station house, seen here in private occupation, was erected in 1986 at a cost of £591; former signalbox in middle distance; former platform and trackbed area turned into a garden	Between Nov 1966 and May 1970
7344B	Former station building and overbridge (infilled), believed to be at Ballynashree on the Ballymena & Lame line, closed to passengers in 1933	Between Nov 1966 and May 1970

## **N.C.C. (STRABANE – LONDONDERRY)**

<i>Ref number</i>	<i>Description</i>	<i>Date taken (where known)</i>
C601	Londonderry Victoria Road station, terminus of the NCC narrow gauge line from Strabane, after removal of tracks; shows platforms and canopies, looking to buffer stops	26 Sept 1957
J186	Londonderry Victoria Road station; view from the island platform towards the buffer stops; Craigavon bridge visible on left	27 Sept 1957

## **BORD NA MONA, TIMAHOE**

<i>Ref number</i>	<i>Description</i>	<i>Date taken (where known)</i>
J165	Timahoe, 3 miles of Prosperous on the L2 Clare to Edenderry road. Narrow gauge loco LM75 (RH 48DL326047 of 1952) and bus-body carriage on a special working for the REC.	24 Sept 1957

## **CORK & MUSKERRY LIGHT RAILWAY**

<i>Ref number</i>	<i>Description</i>	<i>Date taken (where known)</i>
J1895	The site of the former CMLR 3ft gauge CMLR terminus at Blarney, closed completely in 1934	5 June 1961

## **UNIDENTIFIED LOCATIONS**

<i>Ref number</i>	<i>Description</i>	<i>Date taken (where known)</i>
3984B	Former (narrow gauge?) railway warehouse at unidentified Irish location, with two end doorways side-by-side of different dimensions	

**YOUR HELP WILL BE GREATLY APPRECIATED** -- If you can identify the locations in unidentified pictures in any of my lists (including the above) do please write and let me know. If you are the first with the correct information you will be credited with the price of the print that you purchased. All these pictures were taken about 50 years ago and regrettably we didn't keep notes of all travels at the time. So by helping with identifications you will not just be helping me but all the other users of this service. Many thanks.
